PROFESSIONAL EXPERIENCE

Senior Application Developer

AdMedia | Jul 2025 – Sep 2026 | Remote

- Developed and maintained cross-platform mobile applications using Flutter and Dart, focusing on scalable architecture, performance and maintainability.
- Worked across API/service integration, debugging, testing, performance optimization and production releases.
- Contributed to consumer-facing products across travel, search, shopping, deals and cashback use cases.

Software Engineer (Flutter)

IntelliQuity Consulting Services | May 2024 – Jul 2025 | Remote

- Implemented the Mobile Gold Ownership Platform and enhanced application code quality, stability and production readiness.
- Contributed to CI/CD setup, advanced Flutter implementation, Agile development and code reviews.
- Worked with APIs, Firebase/cloud services and maintainable application architecture.

Flutter Developer

Provab Technosoft Pvt. Ltd. | Feb 2023 – Jan 2024 | Remote

- Translated product requirements into dynamic, functional mobile application features and improved application stability.
- Mentored junior developers and supported development standards, clean code and team productivity.

Software Developer (Mobile)

Dev Information Technology Limited | Aug 2021 – Nov 2022 | Remote

- Developed Flutter mobile features and contributed across analysis, implementation, debugging and code-quality activities.
- Estimated products/modules from client requirements, maintained project resources and handled client communication through delivery.

Flutter Associate Programmer

IBL Infotech | Aug 2019 – Jul 2021 | Surat, India

- Built foundational experience in Dart, Flutter widgets, mobile application development and development practices.
- Built mobile application features using Flutter and Dart and contributed to maintenance, debugging and continuous improvement.
- Developed and maintained Flutter features, strengthened code structure and participated across the application lifecycle.

PROJECTS

Leisure.com — Travel-focused application for discovering and comparing hotel stays and travel options. Users can search destinations, filter and compare hotels by price and amenities, and view detailed information before choosing a stay.

Search.com — Search and shopping application focused on product discovery, deals, comparisons and shopping benefits. Users can search for products, browse categories, compare offers across stores and find the best deals in one place.

Rebates.com — Coupons and cashback application helping users discover shopping offers and rebate opportunities. Users can explore stores, browse coupons and offers, and earn cashback on their purchases.

Store.com — Shopping and deals application featuring daily offers, limited product drops and curated recommendations. Users can browse fresh deals every day, catch limited-time drops and discover products picked for them.

Equiti Gold — Gold ownership and investment application enabling users to buy, sell, gift and arrange physical gold delivery. Users can track their gold holdings, transact easily and have physical gold delivered to their doorstep.

We Swap Any Car (WSAC) — Vehicle marketplace platform for selling, buying or swapping new and used cars. Users can list their vehicles, search and filter available cars, view vehicle details and arrange a sale or swap.

Helpozzy — Volunteering-based platform connecting communities around volunteering and social participation. Users can find volunteering opportunities, join causes and events, and connect with others in their community.

Operator365 — Mobile docketing application for plant operators, designed to streamline data entry and team communication. Operators can record daily plant data quickly and share updates with their team, replacing manual paperwork.

Byebye - Declutter — Personal inventory application for organizing belongings, controlling spending and identifying excess. Users can list and categorize their items, keep track of what they own and spot things they no longer need.

Lok - Secured and Uncensored — Communication platform focused on direct, secure interactions and end-to-end encrypted conversations. Users can chat privately and directly with others, with their conversations kept secure and free from censorship.
